MAULID CELEBRATION PT EBARA INDONESIA EMBRACES PROPHET MUHAMMAD SAW AND ORPHANAGE CHILDREN

On January 6, 2024, PT EBARA Indonesia celebrated the Prophet Muhammad's birthday by organizing a charity event for orphaned children. The celebration of the Maulid, which marks the birth of Prophet Muhammad SAW, is an important moment to remember and honour the Prophet. The event was enthusiastically received by the Committee Chairman, PT EBARA Indonesia management, and the Chairman of the Union of Indonesian Workers (PUK SP LEM SPSI) at PT EBARA Indonesia.

It began with the recitation of verses from the Quran by Ustadz Achmad Nurjaya, followed by a sermon from Ustadz Abdul Aziz. Then, the organizers provided charity to the children as a form of the company's social responsibility. The event ended with a closing prayer led by Ustadz Namin Beni, hoping for blessings and acceptance of this activity as a righteous deed by Allah SWT.

FACTORY TOUR WITH BUILDING ENGINEERS ASSOCIATION WEST JAVA

On December 19, 2023, the Building Engineers Association of West Java conducted a visit and factory tour at PT EBARA Indonesia. The aim of this activity was to provide participants with insights into various stages of pump manufacturing processes at PT EBARA Indonesia, including Modeling, Molding, Machining, Assembling, and Performance Testing.

Overall, the event provided valuable experience for distributors and members of the Building Engineers Association of West Java to gain a better understanding of the challenges and innovations in the industrial pump manufacturing industry. This knowledge exchange fosters stronger collaboration and enhances the expertise of all involved parties in the field of pump engineering and manufacturing.

During the witness test, EBARA Pump Middle East FZE and the client observed the pumps in action, ensuring they meet the required standards and specifications. This crucial step emphasizes our commitment to delivering high-quality products to our customers.

EBARA PUMP MIDDLE EAST FZE VISIT PT EBARA INDONESIA

EBARA Pump Middle East FZE conducted a witness test and factory tour at PT EBARA Indonesia's facility, showcasing a strong collaboration between the two entities. The event aimed to assess the performance and reliability of pumps while providing valuable insights into the manufacturing process.

Following the witness test, the visitors were taken on a comprehensive factory tour. They witnessed firsthand the intricate processes involved in pump manufacturing, from modeling and machining to assembling and performance testing. This immersive experience provided a deeper understanding of our innovative approach to pump engineering.

THE DEPARTMENT OF AGRICULTURE'S VISIT TO PT EBARA INDONESIA.

On Friday, February 2, 2024, the Department of Agriculture of the Republic of Indonesia paid a significant visit to PT EBARA Indonesia. This visit was orchestrated with a specific purpose: to conduct inspections involving testing, dimensional measurements, and weight calculations of pumps. These pumps are slated to be distributed across several regions in Indonesia, as part of a broader initiative to bolster agricultural development.

The collaboration between the Department of Agriculture and PT EBARA Indonesia underscores the pivotal role that technology and infrastructure play in advancing agricultural practices. By ensuring the quality and reliability of these pumps through meticulous inspections, both parties are actively contributing to the enhancement of agricultural productivity and sustainability in Indonesia.

During the visit, various aspects of the pumps were scrutinized, ranging from their performance under different conditions to their capacity to efficiently irrigate agricultural lands. Dimensional measurements were meticulously taken to ascertain compatibility and suitability for various agricultural settings. Additionally, weight calculations were conducted to determine logistical feasibility and ease of transport to remote areas.

THE EMPLOYEES OF PT EBARA INDONESIA CONDUCTED MICROSOFT EXCEL TRAINING

As PT Ebara Indonesia, we take great pride in our commitment to nurturing the skills and capabilities of our workforce. Our recent Intermediate Microsoft Excel training session held on February 7, 2024, exemplifies this dedication to employee development.

Recognizing the pivotal role that Excel proficiency plays in modern business operations, we organized this training with the goal of enhancing our staff members' spreadsheet skills. With 20 participants in attendance, we aimed to provide a comprehensive learning experience that would empower our employees to excel in their roles.

Furthermore, these training programs contribute to the overall satisfaction and engagement of our employees, as they see firsthand the value that comes from investing in their development. By empowering our workforce, we strengthen our position as a leader in our industry and ensure our continued success in the years to come.

PT EBARA INDONESIA HAS RENEWED ITS ISO 9001:2015 CERTIFICATION FOR QUALITY MANAGEMENT SYSTEM.

We're excited to announce a major milestone: PT EBARA Indonesia has successfully renewed and updated ISO 9001:2015 Certification for Quality Management System. This marks a significant step in ensuring excellence in our services and products for our customers.

ISO 9001:2015 Certification sets quality management system requirements internationally. We underwent rigorous evaluation to ensure our system meets these standards.

What does ISO 9001:2015 Certification mean for PT EBARA Indonesia? It shows our commitment to:

- **Superior Quality:** We promise top-notch products and services in line with international standards.
- **Operational Efficiency:** Our system enhances operational efficiency, ensuring smooth processes.
- **Customer Satisfaction:** Quality is our priority, ensuring high customer satisfaction.

We thank the PT EBARA Indonesia team for their hard work in achieving this certification. At PT EBARA Indonesia, we're dedicated to improving our services and products continuously, aiming to maintain our industry leadership. With ISO 9001:2015 Certification, we're confident in achieving these goals.

THE NATIONAL SKILL CERTIFICATION AT MECHANICAL LEVEL 2 ORGANIZED BY PT EBARA INDONESIA

PT EBARA Indonesia has served as the coordinating center for the National Mechanical Skills Certification Level 2 recently held at their premises. The two-day event February 21-22, 2024 was attended by employees from various companies.

This certification aims to enhance the competence and skills of the workforce in the field of mechanics. By participating in this certification, participants are tested and evaluated according to nationally established skill standards. Consequently, they will receive official recognition for their abilities in this field.

The organizers and examiners of this certification are assessors who have undergone training by LSP LMI and have received certification from the National Professional Certification Agency. This ensures that the certification process adheres to the established standards.

In addition to enhancing individual competence, this certification also aims to improve the quality and standards of professionalism in the mechanical industry. By facilitating the exchange of knowledge and best practices among employees from various companies, it is hoped that this industry can become more productive and competitive overall.
